MINING, BUSINESS AND STOCKS

ACTIVITY IN THE TINTIC DISTRICT

More Ore Will be Shipped to the Smelters This Year Than for Many Years.

NEW PROPERTIES ARE OPENED.

Little Chief Leases Some Ground-Work at the Laclede-Ore Shipments for Week.

Special Correspondence.

Eureka, June 10 .- The wheels of industry are humming in Eureka and adjacent camps. More ore will be shipped from Tintic district this year than for many years past. Most of the old properties are working full handed and, by the first of July, several properties will start development work. Encouraging information is being received from the workings in the east and west ends of the district and by fall, it is believed, several good shippers will be added to the list,

A three years' lease has been secured on the Robert E. Lee and Wolf Tone mining claims by the Little Chief Mining company from Mrs. T. D. Sullivan, The property joins the Little Chief on the north and is well located.

Work will soon be started on the General Logan claims located near the Bullion-Beck mine. The property is located in the mineral belt and should be made a good producer by proper development work.

Some fine specimens of good ore has been taken from the Julia Lowe claims, near Diamond, by J. W. Green, who has great faith in the future of the south end of the district.

A great deal of prospecting work is eing done on the La Clede property y Manager Weir and the prospects

grow better with every shot.

The different mines of Tintic sent 116 cars of ore into the smelters this week, distributed as follows:

WEEK ON EXCHANGE.

Business Has Been Light Yet Better Than the Previous One.

During the week \$3,042 shares of stocks were sold on the floor of the Salt Lake Stock and Mining Exchange, for which was paid \$41,240.43. This is an increased volume of business the previous week by about week has passed with prices at

about where they were at the begin-ning. Daly-West was among the principal sellers and at prices which fluc-tuated between \$23.50 and \$24. Grand Central began the week with a sale at \$4.73; this was followed by a stiffening to \$4.85, but later the stock weakened. ending today with a bid of \$4.67½. Carisa was not wanted in a larger quantity than 300 shares, which were bought at 6 cents. Some Montana-Tonopah exchanged, the stock going up to \$3 flat. Tetro broke even and held quite from the stock was the stock of firm through the week. Uncle Sam Consolidated displayed a little activity and sold up to 1614 cents. Consolidated Mercur played between 24 and 24% Today's closing quotations and sales

UTAH MEN SUCCEED.

Two Important Strikes Within a Month At the Lincoln Mine.

will be of interest to many locally to know that some important develop-ments have been made n the Lincoln mine at Pearl, Ida., of which John T. Hodson is manager and Captain J. H. Stailings is superintendent. Concerning the new find the States-man says:

Concerning the new find the Statesman says:

"A new vein has been opened in the Lincoln mine at Pearl. It is so large and of such high grade that Captain Stallings, superintendent of the property, said in the Statesman office yesterday the Lincoln is now the greatest gold mine in the state and the camp a second Cripple Creek.

"The new vein was encountered in drifting east on the 200 level. It was at 950 feet from the shift that the strike was made. There the old vein was 15 feet wide, all ore. The new vein came in like a mighty river of ore 20 feet wide, merging itself with the lead on which all the work has heretofore been done."

"Exploration developed the fact that the new vein came in at an angle from the south and west. It is 20 feet wide and makes a solid ore body at the place of union 35 feet thick.

"A large number of assays have been

made from the ore in the new vein and they nearly all run very high. The captain handed the Statesman a lot of captain handed the Statesman a lot of his assay sheets. They show the following returns: \$86.03, \$92.24, \$27.85, \$118.35, \$46.06, \$110.22, \$101.59, \$14.35, \$0.45, \$41, \$59.67, \$54.79, \$13.34, \$38.25, \$48.76, \$113.71, \$61.77, \$53.22, \$111.54, \$6.22, \$58.85, \$113.71, \$61.77, \$53.22, \$111.54, \$6.22, \$58.85, \$118.97, \$46.29, \$34.82, \$13.08, \$164.72, \$5.86, \$18.88, \$165.76, \$30.09. "If will be observed that only eight of all the assays run less than \$20 a ton. While this strike is made on the 200-foot level it is far under the hill where the level has a depth of some 350 feet from the surface. "Captain Stallings also exhibited an assay of the ore found under the great

assay of the ore found under the great shoot recently opened on the 400-foot level. It returned \$610.82. This is from the rich streak that was found lying under the body of heavy ore. It will be remembered that a body of ore some five feet thick was found, running from \$80 to \$100 a ton.

"Thus two great strikes have been made in the Lincoln in a month. Their importance cannot be overestimated. That was a great mine before these discoveries, but it now ranks as one of the bonanza properties of the west. The finding of this new vein adds enormous-ly to the value of the mine and in-creases the importance of the district. It has created great excitement among

the men on the mine.

"Captain Stallings has bonded property lying on both sides of the Lincoln, the bonds calling for a total of \$30,000."

CONSOLIDATION COMPLETE. Bullion-Beck Tunnel and La Reine Properties Are United.

The consolidation of the Bullion-Beck Tunnel and La Reine properties was effected yesterday afternoon and the first officers and directors of the confirst officers and directors of the con-solidated company were chosen, as fol-lows: Jesse Knight, President; Jacob Evans, vice president; R. E. Allen, sec-retary and treasurer; Henry Din-woodey and E. H. Mead, directors. The new company which is to be known as the Beok Tunnel Consolidated, will be the Beck Tunnel Consolidated, will be capitalized for 1,000,000 shares of the par value of \$1 each. The shareholders of the old companies will receive share for that for their stock; 500,000 going to the La Reine and 300,000 to the Bullion-Beck Tunnel company. Of the balance 100,000 shares will be applied on the purchase of the Cyrus Oliver mining claim and the remaining that no 100,000 shares will be sent to the current of the control of the current of the control of the current o mining claim and the remaining 100,000 goes into the treasury for development purposes. The new company starts off with about \$1,600 on hand, \$400 of which was contributed by the La Reine

BINGHAM MINING NOTES. Shipments Being Made From the New England Mill.

From the New England mill, which started up early in May, two shipments of concentrates have been made and another is about ready. The last lot to go contained 30 per cent lead, 13 ounces silver and \$4.80 gold, and netted \$24 per ton. The mill's capacity is now to be increased to between 50 and 60 tons by the addition of a Wilfly, a jig and another set of rolls. A larger crusher may also be substituted. Manager Adkinson plans to soon order a com-pressor and drills, for opening up new ground in the Nast and Benton by crosscutting, drifting and raising from main tunnel.

Ore with contents of 5 per cent copper and \$20 gold is now coming from the copper vein cut by the main junnel at about 300 feet in, but on which prospecting begun only recently.

On the market this week were six cars of Butler Liberal. cars of Butler-Liberal ore-three of

will not the company about \$7,000. Another lot of second-class, amounting to several hundred tons, will be sent to

or several hundred tons, will be sent to mill next month.

At the Bingham & New Haven a much-needed ore bin is going up, 200 feet below the tunnel house, and will be completed this week. A new bunkhouse is also under construction. Teams are hauling another fine lot of ore from the New Haven this week.

Prof. Maynard, the celebrated mine.

Prof. Maynard, the celebrated mine expert, with an associate, and accompanied by Supt. Ed Hoffman of the Silver Shield, began an examination of the Last Chance mines at Mt. Aetna group yesterday for the Monarch Mines

group yesterday for the Monarch Mines company, which has the purchase of these praperties in contemplation.

Manager Edmunds of the Copper Glance Consolidated reports that the crosscut tunnel begun in McGulre gulch some months ago and to be driven 1,800 feet has been advanced between 350 and 400 feet, and says there will be no letup until the work is completed. The tunnel is passing through heavily mineralized ground, and will cut several promising veins at right Today's totals13,860 \$ 1,113.25 cut several promising veins at right veek's totals83,042 \$41,240.4 angles.—Bulletin

SAM NEWHOUSE AT MOUNTAIN CITY

M. M. Johnson, Mine Manager for The Noted Operator, Returns With Some Options.

ON CREENBACK AND KUNZ.

Secured Them from Edward H. Mead -- Latter Also Bonded Other Property in Nevada's New Eldorado.

Samuel Newhouse has decided to take chance in developing another big producing mine in the Mountain City, Nevada, district, which has been at tracting considerable attention of late. M. M. Johnson, belonging to the staff of Mr. Newhouse, is satisfied that the country is worth spending some money in and returned this morning from an inspection of the region with an option in his pocket on the Greenback and Kunz groups, upon which some sensationally rich ore was found recently. The properties were held under option by Edmund H. Mead, who has turned the same over to Mr. Johnson at a figure which leaves him with a good profit on the deal. The price involved in the transaction was not revealed by either Mr. Johnson, or Mr. Mead, who also returned from the west today.

Mr. Johnson, acting for Mr. New-house, will commence immediately to carry on a campaign of development. New machinery will be ordered and the work will be carried on in the usual systematic manner characteristic of Mr. Newhouse in all of his mining en-

While in camp, Mr. Mead closed up While in camp, Mr. Mead closed up some other deals. The Argenta, owned by the Winters brothers, and the Independence, owned by R. B. Woodward—both properties well known producers in the early days of the camp—were secured on an option calling for the payment of \$30,000. These old mines will be opened again and will no doubt soon be placed on a producing basis again.

Mr. Mead has great faith in the future of Mountain City; but he says it is by no means a poor man's camp. While there has been some sensationally rich ore found there, the big money will be made in the large bodies of low

will be made in the large bodies of low grade ores. It will take companies backed up with ample capital to open the mines on the extensive scale that they should be.

The Nelson property, which is being operated by a Pittsburg syndicate, is opening up bigger than ever. The mill recently completed is in commission and working night and day. At the same time some immensely rich ore is same time some immensely rich ore is same time some immensely rich ore is being blocked out. In this property where the recent sensational finds were made, a vein of pay ore four feet wide has been opened at 600 feet depth, which has been followed for a long distance In this vein is an 18-inch streak which arries values well up into the dreds of ounces silver and from \$40 to \$50 in gold. Mr. Mead brought some of the ore in with him and it is fairly plastered with silver.

The old Mountain City property, one

of the principal producers in the early days of the camp, has been bonded to a New York syndicate through William

New York syndicate through William Willis, a mining engineer. On the dump of this mine, Mr. Mead says, are many hundreds of tons of ore that will assay anywhere from \$20 to \$40 in gold and from 25 to 30 ounces silver.

While the camp is by no means inaccessable, the citizens of Elko are on the alert, and, at a meeting of the board of trade in that town last night, the matter of improving the roads was the matter of improving the roads was brought up for discussion and will be brought to the attention of the county

NEW RICHFIELD COMPANY. Property Near Monroe to be Vigorously Developed.

A company has been formed at Rich-field to operate the property south of Monroe, where the recent gold discover-

ies occurred.

With a capital stock of 500,000 shares of the par value of 12½ cents each, says the Richfield Reaper, the Live Oak Mining company has been formed and incorporated. The articles have been filed. W. W. Clark is president, Orson Keeler, vice president; Ed Clark secretary and treasurer; and these, with Herman Swindle and Martin Larsen, the board of directors. he board of directors.

The company owns the ground south

The company owns the ground south of Monroe in Birch Creek canyon, on which such sensational ore has recently been found. There are eight claims in the group incorporated, the Golden Cup Nos. 1 to 6, Live Oak and Live Oak

It is the intention of the company, as soon as some money is forthcoming, to put a force of men to work to systemat-ically develop the property. Every practical mining man who has been ever that it is a great proposition.

Grand Central Dividend.

A dividend was declared yesterday by the Grand Central of Tintic district. The amount was 10 cents a share or \$25,000, which is payable on the 15th

CONCENTRATES.

The Uncle Sam Consolidated had some crude ore in today's market.

The Maxfield Mining company has some ore in today's market. H. G. Fisher is now in charge of the Honerine offices at Stockton.

A shipment of auro-cyanides has ar rived from the Johnny mine at State-

The late assessment of a cent a share on the stock of the Morrison Mining company became delinquent today. The Edwards roaster, recently in-stalled at the Yampa smelter at Bing-ham is in commission.

The Century Gold Mining company received the proceeds from a shipment of concentrates today.

George Z. Edwards departed last night for Calinte, Nev., to examine into the prospects of that region. Some very rich ore is being encount-tred in the property of the Ploche-Ne-

vada Consolidated property at Pioche. Aug. Raht, the chief mechanical en-gineer of the American Smelting and Refining company arrived from Den-

William Bayly, Jr., general manager,

of the Copper Belt railroad and wife, returned from a week's trip to Denver last evening.

J. E. Meyer leaves for Sloux City. Ia. tonight, in the interest of the Federal Gold and Copper Mining company of

Harvey Jones returned last evening from a trip to Park City. He visited the Woodside property, of which he is secretary, and where some jigs are be-ing installing for experimental pur-

A meeting of the directors of the Boston& Gold Mountain company will be held in Richfield next Monday to take action looking to the resumption of work on the property of the company.—Richfield Reaper.

F. W. Hunt has bonded a group of nine claims adjoining the Werdenhoff, making a substantial payment down. These claims belong to W. R. Cobeney and Sons. They have been secured for New York men who propose to develop them extensively during the year.—Boise Statesman. -Boise Statesman.

The contract for three ore crushers, which are to be stationed at the mouth of the Cactus mine tunnel in Beaver county, were signed up yesterday by the management of the Newhouse Mines & Smelters corporation and R. J. Glendinning, local representative of the Allis-Chalmers company.

At the annual meeting of the Gold Run Mining company, J. C. Dick was elected president; Charles De Moisy, vice president; A. Reeves, secretary and treasurer. The remaining directors are fressurer. The remaining directors are F. C. Dern and A. K. Tierman. The property of the company is in Beaver county, adjoining the old Cave mine.

Mr. B. T. Ashby was down from Marysvale last week and confirmed the report of his strike. He went into the wall of the vein he had been following and struck a two-foot vein and struck a two-foot vein of ore. This ore averages \$25 to \$100 in gold and silver, and there is a streak in it about one and a half inches wide that carries values as high as \$1,000. This ore is good shipping stuff, and Mr. Ashby is now getting out a shipment which he expects to furnish him the sinews for the further development of the property.-Richfield Reaper.

CARTHUSIAN MILLIONS.

Paris, June 10 .- During an acrimoni-Paris, June 10.—During an acrimonious discussion in the chamber of deputies between Premier Combes and M. Millerand, Socialist ex-minster, some one on the right shouted: "What about the Carthusian millions?" alluding to a scandal that has been the subject of violent controversy in the press and which was the subject of judicial investigation a few months ago.

"That is one of the most painful recollections of my life," replied the premier. "I sacrificed certain proof of an infamy committed against me to

an infamy committed against me to high political considerations. In Decem-ber, 1902, the secretary of the ministry ber, 1902, the secretary of the ministry of the Interior (Edgar Combes), the premier's son, informed me that he had received a visit from a person offering 2,000,000 francs if I would bring in a bill authorizing the Carthusian monks to remain at Grande Chartreuse. I replied that the person had better not enter my room unless he wanted to go out the window, and attached no further importance to the incident until a few months later after a bill refusing an authorization of the Carthusians had been brought in. The newspapers accused the secretary of having asked a million for me to make a speech in favor of the Carthusians. An investigation was made and the intermediary, who was M. Lagrace (commissioner of France to the St. Louis exposition).

who was M. Lagrace (commissioner of France to the St. Louis exposition), was examined, but refused to name the person for whom he had acted.

"The minister of commerce cabled to M. Lagrave, ordering him to give the name. He replied that he had communicated it to M. Millerand, his former chief. M. Millerand sought me and begged me not to divulge the name for important political reasons. The for important political reasons. The matter was then dropped.

A lively debate ensued. Several deputies demanded a full public investigation of the attempt to corrupt the The chamber decided almost unantmously to appoint a commission of 33 deputies, which will be elected on Tuesday, to thoroughly investigate the

POLITICAL POINTERS.

"The Democracy of Utah has never had excuse for greater rejoicing and encouragement than that which came from the convention of last Thursday," declared Aquila Nebeker, "I agree with Judge Powers that it was a great with Judge Powers that it was a great and glorious fight, but one that does the party good. We have never had a better chance of winning, it seems to me, than we have this fall.

There is no question that Democrats are encouraged and enthused over the spirit shown at the late convention. And there is no greater enthusiast than D. H. Peery, the successful candidate for national committeeman. He has for national committeeman. He has jumped into the harness and is going east within the next 10 days or two weeks to meet the members of the na-tional committee and find out what can be done for Utah this fall. Incidentally, it is supposed that Mr. Peery will work against any reference to polygamy in the national platform. He has the trong support of his party men in this

The young men of the Democrati party are going to organize a club, un der the leadership of Samuel New house, if Mr. Newhouse can be induce to accept the presidency of such a organization. He is now in the easi but a meeting is called, nevertheles for Monday right at the office of Ra Van Cott, in the Deseret National bank building, when a temporary organization will be effected. A list has been circulated since the convention of Thursday and it bears the names of over 100 young Democrats who ar over 190 young Democrats who are willing to get out and hustle. To the club the great responsibility of reg-istration will probably be left entirely. At least, according to big Democrats, to look after the registration will be one of the prime objects of the organzation.

LATE SPORTING NEWS.

Two interesting sporting events are likely to take place within a very short

Next Saturday night, at Provo, Charley Ross and Frank S. Lewls, will meet on the mat to wrostle for a purse of \$250. The event will be the close of the Elks' carnival at Provo.

Last evening, Tommy Reilly, and some of his backers, made a proposition

some of his backers, made a proposition to Manager S. J. Kelley of the Shamrock athletic club for two contests, which, if they are pulled off, will attract much interest here.

They offered to wager \$500 that Reilly

They offered to wager \$500 that Reilly can beat Tommy, Burns in a twenty-round contest, and a similar amount that Jack Reilly can beat Jerry Mc-Carthy in twenty rounds. Mr. Kelley was unable last night to take up the challenges, but informed Reilly and his backers that they would accept the offer if they would show up at 10 o'clock this morning and post their money. This they falled to do, although Kelley was ready and waiting, and was very anxious to make the matches.

According to those who have seen both Reilly and Burns fight, if they come together in a Queensbury argucome together in a Queensbury argu-ment, it will be the fastest middleweight contest ever seen here. Burns de-clares that he can beat Reilly in short order, and says he would give much to get the coast man in the ring with

STOCKS STRONG, TRADING ACTIVE.

Business Well Distributed and at Fractional Gains for Entire List.

Pause in Upward Movement After the Bank Statement Appeared-Close

Was Firm.

New York. June 11 .- The opening trading in stocks today was active and well distributed and at fractional gains running to a half. Exceptions were St. Paul, United States Steel and Amalgamated, which were shaded a small fraction, A fair degree of activity developed in the first hour, but prices varied only slightly from the opening range. Profit taking in the coalers was off-set by the rise in western stocks and the market in general was firm. Lead preferred moved up 1 There was a pause in the upward movenent after the bank statement appeared. Only minor stocks moved widely. St. Louis and San Francisco second preferred, that company's certificates for Chicago and Eastern Illinois and the preferred

stock of the latter rose 2 to 314. Prices stiffened briskly in the final dealfags. The closing was quite active and

firm. Close: Money on call nominal, no loans, Time loans duit and easy, 20 and 20 days, 2024; per cent; six months, 3634. Frime mercantile paper, 34644; per cent. Sterling exchange weak, with actual busines sin bankers' bills at 4.87.2564.87.55 for demand, and 4.85.2964.85.49 for 60 day bills.

TRADE CONDITIONS ARE STATIONARY.

They Show No Change While Collections Continue to be Slow.

MARKET IN CENERAL WAS FIRM ARE CETTING READY FOR FALL.

Complaint Against Weather-Reports From Building Trades Are Favorable.

New York, June 10 -- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "Current trade conditions are without change and collections continue slow as a rule, but there is growing confidence in the future, dealings exhibiting an inclination to prepare for fall and winter on a larger

"There is still much complaint that the weather is unfavorable for retail trade. Reports regarding the building trades are almost uniformly favorable, structural work increasing as the season advances. Railway earnings, now practically complete for April, show a loss of only 2.9 per cent, compared with last year and surpass the corresponding month of any preceding year. The decline in the cost of living has continued

without interruption since March 1.

"List prices for iron and steel products are maintained in most cases, mainly because of agreements rather than the support of consumption.

"Some evidences of weakness are noted in hides, both domestic and foreign although actual changes in quotations are small.

are small.

"Commercial failures this week in the United States are 227, against 220 last week, 226 the preceding week and 215 the corresponding week last year. Failures in Canada number 60, against 20 last week, 17 the preceding week and 14 last year."

BANK CLEARINGS.

New York, June 10.—The following ta-ble, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended June 9, with the percen-age of increase and decrease, as com-pared with the corresponding week last year:
